

P-113 Association Between Melanoma and Noncutaneous Malignancies

V Devirgiliis (Italy), V Panasiti (Italy), M Curzio (Italy), V Roberti (Italy), S Gobbi (Italy), U Bottori (Italy), R Clerico (Italy), S Calvieri (Italy)

P-114 Association of Insurance Status with Cutaneous Melanoma (CM) Stage at Diagnosis

A González (Argentina), J Chapela (Argentina), G Cinat (Argentina), G Sokol (Argentina), R Del Aguila (Argentina), J Ctero (Argentina)

P-115 CDKN2A Variant A148T and Melanoma Risk in a Series of Melanoma Patients from the Spanish Population

C Badenas (Spain), JA Puig-Butlle (Spain), J Malvehy (Spain), C Carrera (Spain), S Puig (Spain)

P-116 Epidemiological Data of Patients with Skin Neoplastic and Pre Neoplastic Lesions from a Hospital in Brazil

S Karst (Brazil), A Moura (Brazil), C Cristofidis (Brazil), R Kozak (Brazil), C Barros (Brazil)

P-117 A Rare Case of an Eyelid Melanoma in a 5 Year Old

A Murray (United Kingdom), G Orfaniotis (United Kingdom), S Al-Ghazal (United Kingdom)

P-118 Why Is There a Left Laterality of Melanoma and Breast Cancer?

Ö Hallberg (Sweden), O Johansson (Sweden)

P-119 Absence of Laterality in Nevus Distribution in European Children Aged 6 - 7 Years Old

M Boniol (France), C Joubert (France), JF Dore (France), MC Chignol (France), E Masuyer (France), P Autier (France)

HISTOPATHOLOGY

P-121 Conjunctival Pigmented Actinic Keratosis Clinically Presenting as Malignant Melanoma – A Case Report

F Asadi-Amoli (Islamic Republic of Iran), AB Heidari (Islamic Republic of Iran)

P-122 Poly(Adenosine Diphosphate-Ribose) Polymerase 1 Expression in Malignant Melanomas – A New Molecular Marker of Aggressive Tumor?

B Csete (Hungary), Z Battyani (Hungary), G Szekeres (Hungary)

P-123 Overexpression of Chemokine Receptors in Human Primary Melanomas – An Important Prognostic Factor?

L Richardsen (Austria), K Eisendle (Austria), B Zelger (Austria), G Weirlich (Austria)

P-124 Lactate Dehydrogenase 5 (LDH-5) Expression and Its Relationship to Bcl-2 Anti-Apoptotic Protein Expression in Human Melanoma

L Zhuang (Australia), R Scolyer (Australia), S McCarthy (Australia), R Murali (Australia), XD Zhang (Australia), J Thompson (Australia), P Hersey (Australia)

P-125 Prognostic Significance of Mitotic Count and Proliferation Markers Ki-67, PHH3, MCM4 and Mitosin in Cutaneous Melanoma

RG Ladstein (Norway), IM Bachmann (Norway), O Straume (Norway), LA Akslen (Norway)

P-126 Density of FOXP3+ Cells in Cutaneous Melanoma: Differential Prognostic Impact in Primary Tumors and Sentinel Lymph Nodes

A Ladányi (Hungary), A Mohos (Hungary)
